

AKHILA T

Junior MERN Stack Developer — React.js — JavaScript — Node.js — Express.js — MongoDB
Calicut, Kerala — Open to Relocate to Hyderabad — 9383408864 — tharolakhila1@gmail.com

 GitHub —  LinkedIn —  LeetCode

PROFESSIONAL SUMMARY

Junior MERN Stack Developer with hands-on experience building responsive web applications using React.js, JavaScript (ES6+), Node.js, Express.js, and MongoDB. Experienced in developing REST APIs, integrating frontend with backend services, implementing authentication, and building database-driven applications. Strong understanding of React fundamentals, asynchronous programming, Git, and Agile workflows.

TECHNICAL SKILLS

Frontend : React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, Responsive Design

Databases: MongoDB, SQL, Schema Design, TTL Indexing, Database Modeling

Authentication & Security: JWT Authentication, Role-Based Access Control (RBAC), OTP-based Verification, Secure API Design

API Integrations: Razorpay Payment Gateway, Third-party REST API Integration

Languages: JavaScript (ES6+), TypeScript

Backend : Node.js, Express.js, REST APIs, TypeScript

Tools & Practices: Git, GitHub, Postman, VS Code, Agile Development, Debugging, Testing, Technical Documentation

PROFESSIONAL EXPERIENCE

Freelance MERN Stack Developer – Wholesale Laptop CRM 2026 – Present

- Developing a full-stack CRM platform for wholesale laptop businesses using React.js, TypeScript, Node.js, Express.js, MongoDB, and Mongoose.
- Building Shop Management as the core business entity for managing shop information, activities, follow-ups, visits, and related records.
- Implementing Role-Based Access Control (RBAC) with dynamic roles and permissions for secure, role-specific access.
- Developing RESTful APIs and integrating frontend and backend modules with structured validation and secure authentication.
- Designing a modular and scalable backend architecture to support future CRM features and business workflows.

MERN Stack Development Trainee – Brototype Dec 2024 – Present

- Developed and maintained RESTful APIs using Node.js and Express.js while collaborating with mentors and developers to build scalable backend features.
- Developed full-stack features using React.js, Node.js, Express.js, and MongoDB.
- Integrated React frontend with REST APIs for seamless user experiences.
- Built reusable frontend components and responsive user interfaces.
- Implemented authentication flows using JWT across frontend and backend.
- Developed e-commerce features including product listings, cart, checkout, and order management.
- Collaborated with mentors during code reviews and Agile-based project development.

PROJECTS

PregnaCare – Pregnancy Care Platform – *Personal Project (Ongoing)*

- Architecting a scalable backend using Node.js, Express.js, TypeScript, and MongoDB with a repository-pattern-based design across 3 user roles (patient, doctor, admin).
- Implementing JWT authentication and Role-Based Access Control (RBAC) for secure, role-specific access by patients, doctors, and administrators.
- Building backend logic for pregnancy tracking, appointment scheduling, doctor onboarding, and chatbot-based patient guidance.
- Designing modular RESTful APIs following clean architecture (Service/Controller/DTO/Mapper layers) for maintainability and scalability.

ZAPZONE – Full Stack E-Commerce Platform – *Personal Project*

- Built and integrated 20+ RESTful APIs supporting user, product, order, payment, and admin workflows using Node.js, Express.js, and MongoDB.
- Implemented backend features including authentication, product management, cart, wishlist, coupon system, order processing, and inventory management.
- Integrated Razorpay payment gateway for secure online transactions.
- Developed admin modules for inventory management, sales reporting, order management, and coupon administration.
- Built a responsive React.js frontend integrated with backend APIs to deliver a complete full-stack application.

EDUCATION

Post Graduate Diploma in Computer Applications (PGDCA)

Sep 2023 – Oct 2024

GNET Institution Kohinoor

Bachelor of Arts in English

Aug 2020 – Aug 2023

Arts and Science College Tanur

ACHIEVEMENTS

- Earned the LeetCode 50 Badge through consistent Data Structures and Algorithms problem-solving.
- Built multiple full-stack web applications using the MERN stack.
- Continuously improving problem-solving and software engineering skills through coding challenges.

ADDITIONAL INFORMATION

- Passionate about backend engineering, scalable systems, and modern web technologies.
- Strong interest in healthcare technology, product development, and user-centric software solutions.
- Quick learner with a continuous improvement mindset and enthusiasm for adopting new technologies.

LANGUAGES

English (Fluent) — Malayalam (Native) — Hindi (Basic) — Tamil (Basic)
