

AKHILA T

MERN Stack Developer

Calicut, Kerala — 9383408864 — tharolakhila1@gmail.com

 GitHub —  LinkedIn —  LeetCode

PROFESSIONAL SUMMARY

MERN Stack Developer with hands-on experience in building full-stack web applications using React.js, Node.js, Express.js, and MongoDB. Strong problem-solving and adaptability skills with practical experience developing e-commerce and healthcare management systems. Passionate about scalable backend architecture, clean code practices, and modern web technologies. Currently working on an innovative healthcare platform focused on pregnancy care and tracking solutions.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, JavaScript, TypeScript, React.js
- **Backend:** Node.js, Express.js
- **Database:** MongoDB, SQL
- **Tools & Platforms:** Git, GitHub, VS Code, Postman
- **Core Skills:** Problem-solving, Debugging, Adaptability
- **Other Concepts:** REST APIs, JWT Authentication, Role-Based Access Control

PROFESSIONAL EXPERIENCE

MERN Stack Development Trainee – Brototype

Dec 2024 – Present

- Designed and developed full-stack web applications using the MERN stack, including e-commerce and healthcare management systems.
- Implemented secure and efficient online payment integration using Razorpay, enabling seamless checkout and transaction handling.
- Built key e-commerce features such as product listing, cart management, order processing, and user authentication.
- Developed healthcare management modules including patient records, appointment scheduling, and role-based access control.(ongoing)
- Optimized backend APIs and frontend components to improve application performance and user experience.
- Debugged and resolved application issues through effective problem-solving and testing practices.
- Collaborated with cross-functional teams to deliver projects aligned with business requirements.

PROJECTS

PregnaCare (Ongoing Personal Project)

- Currently developing a healthcare-focused pregnancy care platform based on my own product idea using the MERN stack.
- Working on features including pregnancy tracking, menstrual cycle monitoring, appointment scheduling, authentication, and a chatbot system designed to assist patients by answering their queries and concerns.
- Designing scalable backend architecture with TypeScript, JWT authentication, and role-based access control.
- Focused on building a user-friendly healthcare experience with modern web technologies and secure application practices.

ZAPZONE – E-Commerce Platform

- Developed a full-stack e-commerce application using React.js, Node.js, Express.js, and MongoDB.

- Implemented features including cart management, order processing, wishlist, coupon handling, and user authentication.
- Integrated Razorpay payment gateway for secure online transactions.
- Built admin functionalities including inventory management and sales reporting.

EDUCATION

Post Graduate Diploma in Computer Applications

Sep 2023 – Oct 2024

GNET Institution Kohinoor

Completed academic and practical projects in web application development using modern technologies.

Bachelor Degree in English

Aug 2020 – Aug 2023

Arts and Science College Tanur

Built strong written and verbal communication skills, supporting effective documentation and team collaboration.

ADDITIONAL INFORMATION

- Passionate about Full Stack Development and scalable web applications.
- Interested in backend architecture, healthcare technology, and modern user experience design.
- Strong willingness to continuously learn and adapt to new technologies.
